SECOND ANNUAL DANCE OF HEBREW LADIES' AID SOCIETY.

Held in Cadillac Hall With Large Number in Attendance.

Their second annual dance was given on Tuesday evening in Cadillac hall by the Hebrew Ladies' Aid society, and was carried out with great success, both from a social and financial standpoint, as the hall was filled with a crowd of nearly four hundred people, which meant satisfactory returns at the box office, and the programme of fifteen numbers, with the full Lyric orchestra playing, made that feature of the evening especially enjoyable. The substantial proceeds will be devoted to charitable purposes.

On the arrangement committee were Mrs. A. Ahlman, Mrs. William Trachtenberg and Mrs. J. E. Alofsin. The aids were Miss Ida Trachtenberg, Miss Rose Crumb, Miss Ida Sears and Miss Anna Schwartz. The floor directors were S. S. Alofsin, I. Taylor, Michael Schwartz and S. Sigal. The social evening marked the feast of Purim, one of the principal festival events of the Jewish religion, and always a time of merrymaking and social events. It commemorates the successful appeal which Queen Esther made to King Ahasuerus, which saved the Jews from the destruction which had been planned for them by their enemy, Mordecai. In Jewish households on this evening the portion of the Old Testament which relates the story of Esther is read and wherever the name of Haman, at whose counsel Queen Esther made her appeal, it is greeted with much clapping of hands, but their hatred of Mordecai is expressed when the name of this enemy of the Jews occurs.

Working For Tuberculosis Sanitarium

Many From Here Including Doctors Will Appear Before Humane Institutions Committee—Norwich Business Men's Association Names Representative.

There will be a good sized delegation from this city, it is expected, at Hartford on Wednesday to appear before the committee on humane institutions in behalf of the tuberculosis sanitarium for this county. From the beneficial effect of the hills in this vicinity, it is probable that such an institution would be located hereabouts, and it is greatly needed, according to the statements of doctors and those in a position to know.

The Norwich Business Men's association has taken the matter up, and has named Charles D. Noyes to represent it before the committee in urging the favorable report upon the institution for the county. Mr. Noyes was appointed at a meeting of the directors of the association which was held on Monday evening at Baltic. For some time there has been a request before the association for a representative of the directors occasionally at Baltic or Taftville. Monday evening eight of the directors went to Baltic, where the meeting was held, and the association was taken to a nearby hall, where refreshments were served by the Baltic members, and there was a gathering of the Baltic business men to meet the directors of the association. President C. I. Smith of the association presided over the session. The plan presented and discussed was to have a building that others will be held there or in Taftville, in the future.

In addition to the representative of the Business Men's association it is understood that Francis J. Leavens, president of the local branch of the Red Cross, M. J. Kelley of the Central Labor union, and Mrs. Harriman, Donnelly, Murphy and others will be in attendance and speak before the committee upon the need of the institution.

LEGISLATIVE HEARINGS OF INTEREST IN THIS COUNTY

Many Matters to Come Before Committee This Week, Which Will Take Many to Hartford.

In addition to the hearing on the matter of the tuberculosis sanitarium for this county, which directly interests this city, there are many other matters coming before committees this week which will take many to Hartford upon them.

Today before the finance committee the bonding matter which is interesting New London will come up, as will the annexation of Waterford to New London. There will be also the continued hearing on the petitions of the Essex Light and Power company and the Middlesex Light and Power company to the most of the territory in Middlesex county and southwestern New London county coming before the committee on incorporations and unless these concerns have reconciled their differences, a pretty scrap is apt to result. Then, too, is the date of the railroad committee's hearing on Representative Whitton's bill providing that but a three-cent fare shall be collected by street car conductors for a standing ride. There is to be a spirited time over this, for the officials are to appear on mass to oppose it, while Mr. Whitton has marshaled a good number of the abused public to his support.

The committee on fish and game has a couple of matters before it this afternoon. One is Representative Chapman's bill providing that alewives shall not be taken in May from Bridge brook or Lake Umbagog, so that no person shall take alewives in Manacook creek in East Lyme except above Brainerd's island on Friday or Saturday nights in March, April, May or June. The other is a bill introduced by Representative Johnson of Montville providing that the state fish and game commission shall cause to be distributed copies of the fish and game laws to the game wardens at least one week before the opening of the season for the taking of fish and game and the wardens shall make public the same.

Wednesday afternoon sees another lot of hearings on matters which interest New Londoners. For one thing the committee on agriculture and food will hear Governor Edwin's plan to abolish the office of state dairy and food commissioner by transferring his duties to the commissioner on domestic animals, which would deprive of his office Commissioner Crutenden of his office. On Wednesday the committee on public health and safety gives another hearing on the proposition to build a new St. John's hospital to practice in Connecticut, and the insurance committee will consider still another amendment to the charter of the New London County Fire Insurance company. The New London sidewalks hearing comes on Thursday.

"SIMPLICITY IN DRESS" STIRS UP GIRL STUDENTS.

Assistant Principal of New York High School Now Very Unpopular.

New York, March 13.—There is great excitement among the girls of Erasmus Hall high school and much whispering gathering in the corridors, with the girls in charge of the movement of the various girls' societies, for the girls are "mad," clean through. The assistant principal, Miss Kate Turner, is the person on whose devoted head their wrath is being poured. Her suggestions in regard to simplicity and uniformity of dress and the abolishment of extensive graduation dresses have been taken in good part by the girls, who assert that they and their parents are the only persons who should have any suggestions to make in regard to dress. Preparations for the commencement and graduation exercises, which are still several months away, have already begun at the high school, and the question of graduation dress has been discussed among the girls. Miss Turner, with the beginning of the preparations, delivered several addresses to the girls, which have aroused the question of simplicity and uniformity of dress and decried the extravagance of dress that usually marked the graduation.

Good Templars Meet. Buckingham lodge, International Order of Good Templars, met in regular course on Monday evening in its rooms in the Bill block. Chief Templar Ernest Allison Smith presided. One new member, Alexander McPierion, who had been a Good Templar in Scotland, was initiated, and was later elected marshal. Mrs. A. R. Parker was elected pianist. The meeting had a fair attendance and the session was full of interest.

W. W. Lang in Charge of Mail. The trustees of St. Mary's A. and R. society, who have in charge the hall in their building, have just concluded arrangements to put the hall in charge of W. W. Lang. This is a change in the management as for the past seven or eight years it has been in the hands of Prof. Thomas Maher.

Germany, a non-agricultural country, is shipping over \$1,000,000 worth of woolen cloth and hosiery, not all of German origin, to the United States, an agricultural country; and the exports of food products also now exceed \$1,000,000 per annum.

Entire County Should Help.

Regarding the hearing Wednesday at Hartford upon the bill to establish a tuberculosis sanitarium in New London county, Dr. Charles B. Graves of New London writes: It is hardly necessary to point out the importance of this measure to the people of this end of the state. Cases are constantly arising which prove the urgent need of a local institution for the care and treatment of consumptives. Favorable action upon this bill will very largely depend upon the degree of interest shown at the hearing by the citizens of New London county.

I am informed that our senators and representatives are enthusiastic in support of this measure, but it is slightly important that there be also at the hearing a good representation of physicians and others interested in public health matters. It is particularly desirable that the testimony before the committee be strong in the citation of specific instances illustrating the need of such a hospital. Medical men and others cognizant of the cases will afford great aid by personally appearing before the committee, or in case of inability to do so by sending written statements.

The people of Norwich have for some time been active along this line, and have developed here a strong public sentiment in favor of the movement. New London in the midst of her other activities cannot afford to be indifferent to this opportunity, but should do her share toward securing for this county this much needed additional resource.

The hearing will be at the capitol, Hartford, before the committee on humane institutions, beginning at 2 p. m.
